INDEX OF SUBJECTS

PAGE

ADRENAL, fused suprarenal glands in association with central nervous system defects in the first half of foetal life . 191
AMYLOID, experimental amyloidosis: experience with *Candida albicans* as an amyloidogenic agent and liver biopsy as a diagnostic tool . . . 199
APES, comparative pathology of the colon 65
ARTERIES, CORONARY, experimental assessment of macroscopic enzyme techniques for the autopsy demonstration of myocardial infarction . . . 93
relation of coronary thrombosis to ischaemic myocardial necrosis . . 99

BONE, phagocytosis and trypsin-resistant glass adhesion by osteoclasts in culture 55
possible role of the fibroblast in granuloma-induced bone resorption in the rat 61
BRAIN, electron microscopy of malaria in golden hamsters (*Mesocricetus auratus*) infected with *Plasmodium berghei* . 115
BREAST, paranodal vascular spread in cancer with axillary node involvement 111
BURNS, biochemical and pharmacological properties of a cardiotoxic factor isolated from blood serum . . 147
biochemical and pharmacological properties of a neurotoxic protein isolated from blood serum 137

CANDIDA ALBICANS as an amyloidogenic agent and liver biopsy as a diagnostic tool 199
CARDIOTOXIC FACTOR isolated from the blood serum of burned patients: biochemical and pharmacological properties 147
CARTILAGE in chondrodysplasias, pathology of 11
CELL CULTURE, in-vitro modification of membrane receptors on cells of the mononuclear phagocyte system. . 173
phagocytosis and trypsin-resistant glass adhesion by osteoclasts . . . 55
CHONDRODYSPLASIA, pathology of cartilage in 11
CLOSTRIDIUM PERFRINGENS α TOXIN used to demonstrate role of blood capillaries in the formation of inflammatory exudate 73
COLITIS, combination of polyposis and inflammatory bowel disease of a granulomatous type. 51
COLON, similarities between the pathology of certain diseases in humans and primates 65
CONGENITAL MALFORMATION, fused suprarenal glands in association with central nervous system defects in the first half of foetal life 191
COTTON PELLETS containing PPD implanted subcutaneously into CFA-sensitised guinea-pigs producing a reaction having many characteristics of the delayed hypersensitivity reaction . 1
CYSTS, ULTIMOBRANCHIAL BODY, in the human foetal thyroid: pathological implications 89

DOGS, experimental assessment of macroscopic enzyme techniques for the autopsy demonstration of myocardial infarction 93
DWARFISM, pathology of cartilage in chondrodysplasias 11

ELECTRON MICROSCOPY, SCANNING, cerebral malaria in golden hamsters (*Mesocricetus auratus*) infected with *Plasmodium berghei* 115
ELECTRON MICROSCOPY, TRANSMISSION, granulomatous inflammation in normal and athymic mice infected with *Schistosoma mansoni* 207
hamster cerebral malaria . . . 115
histogenesis of nerve sheath myxoma . 35
paranodal vascular spread in breast cancer with axillary node involvement 111
pathology of cartilage in chondrodysplasias 11
phagocytosis and trypsin-resistant glass adhesion by osteoclasts in culture . 55
pigmented villonodular synovitis . . 19
role of blood capillaries in the formation of inflammatory exudate . . . 73
vascular permeability in the rat gingiva: a model of vessel response in chronic inflammation 27
ENZYMES, effect of size and timing of a pretreatment dose of phenobarbitone on the liver lesion caused by ngaione in the mouse 121

PAGE

ENZYMES, experimental assessment of macroscopic enzyme techniques for the autopsy demonstration of myocardial infarction 93
mechanical, enzymatic and morphological changes in acute pulmonary insufficiency following the production of a haematoma in rabbits . . . 157
quantitative comparisons of the pulmonary toxicity of tobacco and NSM smoke 185

FIBROBLAST, possible role in granuloma-induced bone resorption in the rat . 61
FOETUS, fused suprarenal glands in association with central nervous system defects in the first half of foetal life . 191
ultimobranchial body cysts in the human foetal thyroid: pathological implications 89

GINGIVA, vascular permeability in the rat gingiva: a model of vessel response in chronic inflammation 27
GONADECTOMY and oestrogen administration: effect on the response of lymph-node post-capillary venules to infection with *Toxoplasma gondii* . . 129
GRANULOMAS, giant pseudopolyposis in granulomatous colitis . . . 51
possible role of the fibroblast in granuloma-induced bone resorption in the rat 61
ultrastructural study of granulomatous inflammation in normal and athymic mice infected with *Schistosoma mansoni* 207
GUINEA-PIGS, delayed hypersensitivity reactions using cotton pellets: demonstration of macrophage migration inhibition activity in the cell-free exudate 1
in-vitro modification of membrane receptors on cells of the mononuclear phagocyte system 173

HAEMARTHROSIS, ultrastructure of pigmented villonodular synovitis . 19
HAEMATOMA, mechanical, enzymatic and morphological changes in acute pulmonary insufficiency following the production of a haematoma in rabbits 157
HAMSTERS, electron microscopy of cerebral malaria following infection with *Plasmodium berghei* 115
HISTOCHEMISTRY, experimental assessment of macroscopic enzyme techniques for the autopsy demonstration of myocardial infarction 93

PAGE

HYPERSENSITIVITY reactions in guinea-pigs using cotton pellets: demonstration of macrophage migration inhibition activity in the cell-free exudate . . 1

IMMUNE RESPONSE, to blood flow and permeability changes in the immune lymphocyte transfer reaction . . . 39
INFECTION, effect of gonadectomy and oestrogen administration on the response of lymph-node post-capillary venules to infection with *Toxoplasma gondii* 129
electron microscopy of cerebral malaria in golden hamsters (*Mesocricetus auratus*) infected with *Plasmodium berghei* 115
granulomatous inflammation in normal and athymic mice infected with *Schistosoma mansoni*: ultrastructural study 207
INFLAMMATION, CHRONIC, vascular permeability in the rat gingiva . . . 27
INFLAMMATORY EXUDATE, role of blood capillaries in the formation of . . 73

JOINTS, patella displacement and osteoarthrosis of the knee joint in mice . 165
ultrastructure of pigmented villonodular synovitis 19

LIVER, effect of size and timing of a pretreatment dose of phenobarbitone on the liver lesion caused by ngaione in the mouse 121
experimental murine amyloidosis: experience with *Candida albicans* as an amyloidogenic agent and liver biopsy as a diagnostic tool . . . 199
LUNG, mechanical, enzymatic and morphological changes in acute pulmonary insufficiency following the production of a haematoma in rabbits . . 157
quantitative comparisons of the pulmonary toxicity of tobacco and NSM smoke 185
LYMPH NODE, effect of gonadectomy and oestrogen administration on the response of lymph-node post-capillary venules to infection with *Toxoplasma gondii* 129
paranodal vascular spread in breast cancer with axillary node involvement 111
LYMPHOCYTE TRANSFER REACTION, blood flow and permeability changes . . 39

MACROPHAGE, delayed hypersensitivity reactions in guinea-pigs using cotton pellets: demonstration of macrophage

PAGE

migration inhibition activity in the cell-free exudate 1
in-vitro modification of membrane receptors on cells of the mononuclear phagocyte system 173
quantitative comparisons of the pulmonary toxicity of tobacco and NSM smoke 185
ultrastructural study of granulomatous inflammation in normal and athymic mice infected with *Schistosoma mansoni* 207
MALARIA, cerebral, in golden hamsters (*Mesocricetus auratus*) infected with *Plasmodium berghei*: electron microscopy study 115
MEMBRANE RECEPTORS, in-vitro modification of membrane receptors on cells of the mononuclear phagocyte system. 173
MICE, effect of gonadectomy and oestrogen administration on the response of lymph-node post-capillary venules to infection with *Toxoplasma gondii* . 129
effect of size and timing of a pretreatment dose of phenobarbitone on the liver lesion caused by ngaione . . . 121
experimental amyloidosis: experience with *Candida albicans* as an amyloidogenic agent and liver biopsy as a diagnostic tool 199
patella displacement and osteoarthrosis of the knee joint 165
ultrastructural study of granulomatous inflammation in normal and athymic mice infected with *Schistosoma mansoni* 207
MORPHOMETRY, assessment of inflammatory cell types and their interrelationships in hepatic granulomas in *Schistosoma mansoni* infected mice 207
quantitative comparisons of the pulmonary toxicity of tobacco and NSM smoke 185
MYOCARDIAL INFARCTION, experimental assessment of macroscopic enzyme techniques for the autopsy demonstration of 93
relation of coronary thrombosis . . 99
MYXOMA, histogenesis of nerve sheath myxoma: report of a case with electron microscopy 35

NERVE SHEATH myxoma: report of a case with electron microscopy . . . 35
NEUROTOXIC PROTEIN isolated from the blood serum of heavily burned patients: study of biochemical and pharmacological properties 137
NGAIONE administered to mice: effect of size and timing of a pretreatment dose of phenobarbitone on the liver lesion. 121

PAGE

OEDEMA, PULMONARY, mechanical, enzymatic and morphological changes in acute pulmonary insufficiency following the production of a haematoma in rabbits 157
OESTROGEN administration and gonadectomy: effect on the response of lymph-node post-capillary venules to infection with *Toxoplasma gondii* . 129
OSTEOARTHROSIS and patella displacement studied in mice 165
OSTEOBLASTOMA, clinical, radiological and pathological features of two cases of an osteogenic tumour with long survival. 195
OSTEOCLASTS, phagocytosis and trypsin-resistant glass adhesion by osteoclasts in culture 55

PATELLA displacement and osteoarthrosis of the knee joint in mice . . 165
PHAGOCYTOSIS and trypsin-resistant glass adhesion by oestoclasts in culture . 55
in-vitro modification of membrane receptors on cells of the mononuclear phagocyte system 173
PHENOBARBITONE, effect of size and timing of a pretreatment dose on the liver lesion caused by ngaione in the mouse 121
PLASMODIUM BERGHEI, electron microscopy of cerebral malaria in golden hamsters (*Mesocricetus auratus*) infected with . 115
PRIMATES, comparative pathology of the colon 65
PSEUDOPOLYPOSIS in granulomatous colitis. 51
PULMONARY INSUFFICIENCY following the production of a haematoma in rabbits: mechanical, enzymatic and morphological changes 157

RABBITS, biochemical and pharmacological properties of a neurotoxic protein isolated from the blood serum of heavily burned patients . . . 137
blood flow and permeability changes in the immune lymphocyte transfer reaction 39
mechanical, enzymatic and morphological changes in acute pulmonary insufficiency following the production of a haematoma 157
phagocytosis and trypsin-resistant glass adhesion by osteoclasts in culture . 55
RATS, possible role of the fibroblast in granuloma-induced bone resorption . 61
quantitative comparisons of the pulmonary toxicity of tobacco and NSM smoke 185
role of blood capillaries in the formation of inflammatory exudate . . . 73

PAGE

RATS, vascular permeability in the gingiva: a model of vessel response in chronic inflammation 27

SALDINO–NOONAN SYNDROME and other cases of chondrodysplasia studied for the pathology of cartilage . . 11

SCHISTOSOMA MANSONI infected normal and athymic mice: ultrastructural study of granulomatous inflammation 207

SHOCK, biochemical and pharmacological properties of a cardiotoxic factor isolated from the blood serum of burned patients 147

biochemical and pharmacological properties of a neurotoxic protein isolated from the blood serum of heavily burned patients 137

mechanical, enzymatic and morphological changes in acute pulmonary insufficiency following the production of a haematoma in rabbits . . 157

SKIN GRAFTS, blood flow and permeability changes in the immune lymphocyte transfer reaction 39

SYNOVIUM, ultrastructure of pigmented villonodular synovitis 19

THROMBOSIS, relation of coronary thrombosis to ischaemic myocardial necrosis 99

PAGE

THYMUS, ultrastructural study of granulomatous inflammation in normal and athymic mice infected with *Schistosoma mansoni* 207

THYROID, ultimobranchial body cysts in the human foetal thyroid: pathological implications 89

TOBACCO and NSM smoke: quantitative comparisons of the pulmonary toxicity 185

TOXOPLASMA GONDII, effect of gonadectomy and oestrogen administration on the response of lymph-node post-capillary venules to infection with . . 129

TUMOURS, HUMAN, INDIVIDUAL, aggressive osteoblastoma 195

paranodal vascular spread in breast cancer with axillary node involvement 111

ULTIMOBRANCHIAL BODY CYSTS in the human foetal thyroid: pathological implications 89

VASCULAR PERMEABILITY, blood flow and permeability changes in the immune lymphocyte transfer reaction . . 39

in the rat gingiva: a model of vessel response in chronic inflammation . 27

role of blood capillaries in the formation of inflammatory exudate . . 73

VILLONODULAR SYNOVITIS, pigmented: ultrastructural study 19
